

# SAVVAS literacy Screener & Diagnostic Assessments

ALL-NEW!

## Next-Level Growth for K-8 Students

Each student entering your classroom is unique—with individual strengths and learning needs. Now you have an easy and reliable way to diagnose student needs to promote positive outcomes for your K-8 students. The new Savvas Literacy Screener and Diagnostic Assessments, available on the Savvas Realize™ platform, are designed to maximize the power of instruction by targeting each student's greatest opportunities for growth and pairing that data with aligned instructional resources.

## Assessments That Work Together

A short screening assessment identifies proficiency in prerequisite ELA/literacy skills.

An adaptive Diagnostic digs deeper to pinpoint strengths and opportunities for growth.

Norm-referenced student data generates on-, above-, or below-level instructional content recommendations.

## Achieve Equity and Promote Learning

### Developed in Partnership with WestEd

WestEd's leadership and psychometric expertise ensure item validity and assessments are unbiased and equitable.

- Industry recognized experts
- Expertise producing proprietary, valid, and normed assessments

# SAVVAS literacy Screener & Diagnostic Assessments

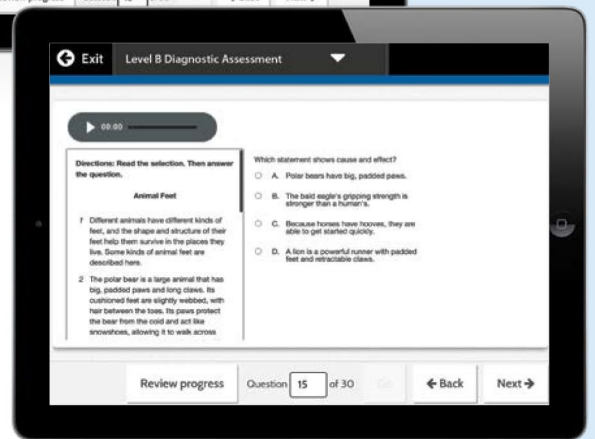

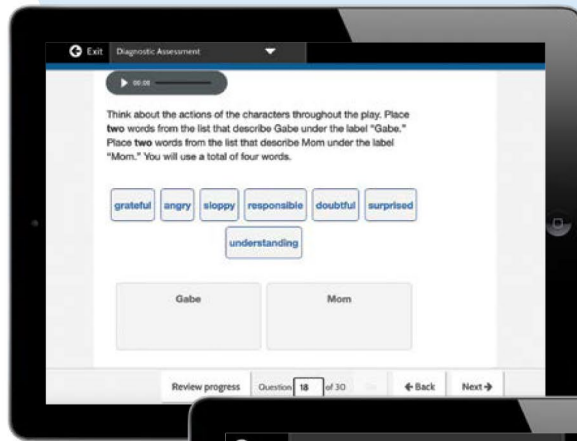

## Test Less, Teach More

Quickly identify student needs with a short, accessible screener. Self-directed student assessments on Savvas Realize™ allow for individual or group testing and saves you time. Data is automatically aggregated for each class and student for immediate use.

## Personalized for Efficacy and Efficiency

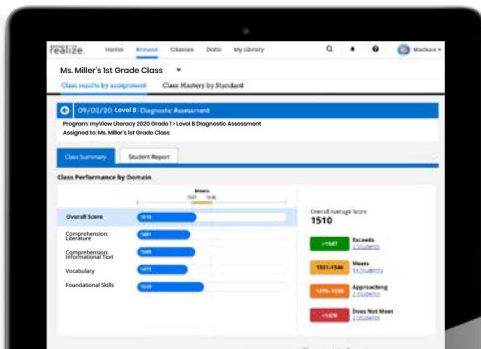

The adaptive format limits time spent on testing while improving test reliability.

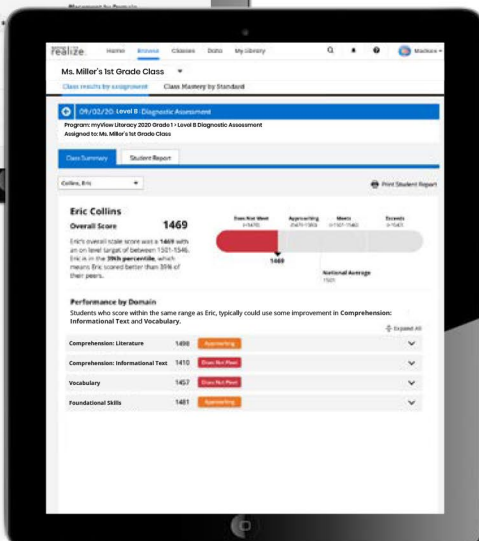

Diagnostic item types:

- Multiple Choice
- Drag-and-Drop
- Hot Text
- Single and Paired Passages
- Drop Down

## Class Summary Report

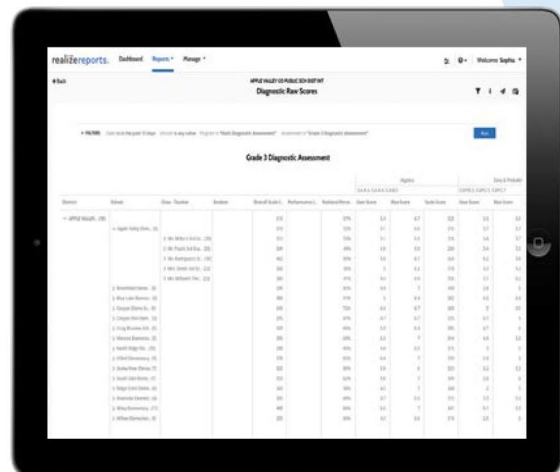

## Student Report

## Robust Data Reporting

In-depth views of student learning are available by district, school, class and individual student. Track performance with this norm-referenced assessment.

## Administrator Report
